SUMMARY

Motivated and detail-oriented fresher with hands-on project experience in front-end development using HTML, CSS, JavaScript, and React.js, along with back-end knowledge of Node.js, Express, PHP, and databases like MySQL and MongoDB. Familiar with Python and SQL, eager to contribute and grow in a dynamic organization.

SKILLS

Programming Languages: JavaScript, Python, HTML5/CSS3, SQL, PHP

Technologies: React.js, Node.js, Express.js, MongoDB, MYSQL, Git, Front-End, Back-End

EDUCATION

Bachelor of Technology in ECE
Brindavan Institute of Technology and Sciences

Jul 2018 - Aug 2022

Board of Intermediate Andhra Pradesh
SRI. CHAITANYA JUNIOR COLLEGE, KURNOOL.

Mar2016 - Jun2018

PROJECTS

GYM WEBSITE (Full Stack Application)

- **Frontend (React.js):** Designed an interactive gym website with a clean UI, featuring a BMI Calculator for users to track fitness goals and a Contact Us form for easy communication.
- **Backend (Node.js & Express.js):** Built a secure backend to handle form submissions and process user data efficiently.
- **Email Integration:** Implemented functionality to send submitted form details directly to Gmail, ensuring smooth user-admin communication.

Insta Share (Instagram Clone)

- Developed a responsive Instagram-like application with features such as login, viewing posts and stories, post search by caption, like/dislike actions, and user-specific profiles.
- Implemented protected routes using React Router (Route, Switch, Link) and integrated React Slick for horizontal scrolling in the stories section.
- Built pixel-perfect UI components based on Figma mockups, used fetch API for data operations, and ensured persistent login using client-side storage.

RESTAURANT APP

- **Frontend (React.js):** Developed a responsive restaurant application with a Reservation Form to allow users to easily book tables online.
- **Backend (Node.js & Express.js):** Implemented APIs to handle reservation form submissions and ensure secure communication between frontend and backend.
- **Database (MongoDB):** Integrated MongoDB to store and manage reservation details efficiently for seamless data handling.
