

Summary

Passionate Full Stack Developer with experience in building responsive and scalable web applications using React.js, Node.js, Express.js, PostgreSQL, MySQL, JavaScript, HTML, CSS, and Knex.js. Skilled in developing RESTful APIs, database design, CRUD operations, and delivering clean, efficient, and user-focused software solutions while collaborating effectively in team environments.

Education

BRINDAVAN INSTITUTE OF TECHNOLOGY AND SCIENCE

Bachelor's of Technology in ECE

2022

SRI. CHAITANYA JUNIOR COLLEGE, KURNOOL.

Intermediate

2018

Experience

Infomatrix Digital Solutions

Associate Software Engineer

Dec 2022 - Jan 2025

- Developed and maintained responsive full-stack web applications using HTML, CSS, JavaScript, Bootstrap, React.js, Node.js, Express.js, PostgreSQL, MySQL, and Knex.js.
- Built RESTful APIs, implemented CRUD operations, designed and managed databases, integrated frontend with backend services, and optimized application performance.
- Collaborated with cross-functional teams using Git/GitHub, performed testing, debugging, and code reviews, while following best practices to deliver scalable and maintainable web applications.
-

Projects

• VB Trading App – Project Description

Developed the VB Trading App, a web-based trading platform that enables users to manage their trading activities through a secure and responsive interface. Implemented user authentication, wallet management, trade execution, transaction history, and real-time profit/loss calculations. Developed RESTful APIs, integrated a PostgreSQL database using Knex.js, and implemented CRUD operations for users, trades, and wallet transactions. Focused on delivering a scalable, secure, and user-friendly application with optimized performance.

Technologies Used: React.js, Node.js, Express.js, PostgreSQL, Knex.js, JavaScript, HTML5, CSS3, REST APIs, Git, GitHub.

- **Job Portal Website – Project Description**

Developed a Job Portal web application that enables users to search, save, and apply for jobs through an intuitive and responsive interface. Built secure RESTful APIs for job and company management, implemented CRUD operations, search, filtering, sorting, pagination, and authentication. Designed and managed the PostgreSQL database using Knex.js migrations and seeders, ensuring efficient data handling and scalability. Collaborated on both frontend and backend development to deliver a seamless user experience.

Technologies Used: React.js, Node.js, Express.js, PostgreSQL, Knex.js, JavaScript, HTML5, CSS3, REST APIs, Git, GitHub.
